

Call for tutorial proposals

<http://www.eurosys.org/2009>

General Information

Researchers and practitioners are invited to submit proposals for tutorials to be held in conjunction with the EuroSys 2009 conference.

The purpose of tutorials is to educate conference attendees about specific topics, or to provide background necessary to understand technical advances. The tutorial should attract a wide audience, provide an introduction to the chosen research area and it should also cover the most important works in depth. Proposals should not exclusively focus on the presenter's own work or a commercial product.

Submission

Prospective organisers of a tutorial must notify the tutorial chairs of their intention by sending 2 to 4 pages containing the following information:

- **Basic information:** Title of the tutorial, contact information for the presenter(s) (name, email address, affiliation), duration (half day or full day), keywords, and scope or objective of the proposed tutorial.
- **Target audience:** Characterisation of the potential target audience for the tutorial, including prerequisite knowledge.
- **Abstract:** A brief description of the tutorial, suitable for display on the conference web site.
- **Detailed outline:** A detailed outline of the tutorial addressing the following issues: references to past tutorials or teaching materials, why the topic is of interest for EuroSys 2009 attendees and the expected benefit to participant, depth and scope of the exposed topics, exercises, software demonstrations, etc.
- **Presenters' biography:** A brief resume of the presenter, highlighting her/his background in the tutorial area and evidences of teaching experience.

The evaluation of the proposal will take into account its general interest for EuroSys 2009 attendees, the

quality of the proposal, the expertise of the presenters, and general programme considerations. Please send electronic submissions to 2009wscc@eurosys.org. You can expect a confirmation of the reception of the proposal. If you did not receive a confirmation, please resend the proposal.

Responsibilities

The EuroSys organization provides:

- Management of registration for participants
- Setup of meeting space, and related equipment.
- Coffee-breaks and dinner arrangements.
- Reproduction of the tutorial material and transport to the conference site.

Tutorial speakers are responsible for:

- Providing tutorial material.
- Presenting the tutorial at EuroSys 2009.

The EuroSys 2009 tutorial chairs reserve the right to cancel any tutorial if too few attendees are registered for the tutorial. Tutorial speakers will be honoured by a **free conference registration**.

Important dates

Tutorial proposals due:

Friday 17th October 2008

Notification of acceptance:

Monday 3rd November 2008

Date of Tutorial:

Tuesday 31st March 2009

Contacts

Tutorial and workshop co-chairs:

Franz J. Hauck, Ulm University, Germany and
Olaf Spinczyk, TU Dortmund, Germany
